William Carey College

AN INTRODUCTION

"Expect great things from God; attempt great things for God."

WILLIAM CAREY

1761 - 1834

When God gave William Carey to the modern world he gave a spiritual statesman without a peer. A survey of the biographic facts of Carey suggests the impossibility of exhausting the reasons why William Carey is known as the father of modern missions.

In a cobbler shop in Northampton, England he developed a passion for world missions and led his brethren in a world conquest for Christ by his world-famous sermon in which he said, "Expect great things from God; attempt great things for God."

As a missionary educator, William Carey founded Serampore College, which was the first Christian college in all of India. Because he was a great linguist, the British governor at Calcutta offered him the professorship of Oriental languages at Fort William College. Here Carey spent thirty years gathering a faculty of linguists and preparing for his most monumental work, the translation of Scriptures into a multitude of languages. William Carey translated the Scriptures, or parts of the Scriptures, into thirty-four different languages. He produced six grammars, and compiled three dictionaries and one vocabulary.

Carey's determination was as steadfast as the purpose of God, yet he was outstandingly humble. He chose to be called not Dr. Carey, the professor at Fort William, but the cobbler. He was characterized by a steadfast belief in the value of the individual and that God intended that all men be free. To that end he sought to give them the knowledge of God, that they in their choices might be right.

History of William Carey College

In 1906 W. I. Thames, a pioneer educator in South Mississippi, founded in the southern part of Hattiesburg "South Mississippi College." This school did a noble work until 1909, when fire destroyed its immense administration building with all contents, including accounts, library, class rooms, and an auditorium with seating capacity of 1500.

Early in 1911 Mr. W. S. F. Tatum, a wealthy lumberman and Methodist layman who had acquired the property, after prayerful consideration offered this property as a gift to the Baptist. The gift was conditioned upon the successful operation of a Christian school for girls for five consecutive years, with an attendance of not less than one hundred students the first year. At that time the property consisted of two frame buildings and ten acres of cut-over pine land.

A corporation was organized under the laws of the state of Mississippi to own and control the college. Nine trustees were chosen from four Baptist churches of Hattiesburg, namely First Church, Columbia Street, Immanuel, and Fifth Avenue Church. The trustees organized and elected Professor W. W. Rivers, President of Central College, Conway, Arkansas, to take charge as President. Under his leadership the opening exercises were held in the Old Red Circle auditorium on Hemphill Street in September, when he gave the new institution the name *Mississippi Woman's College.* In November, 1911, when the Mississippi Baptist State Convention held its annual meeting in Gulfport, the school was offered free of debt to the Convention and was formally accepted. Baptist ownership continues. Control is exercised through a board of fifteen trustees, five of whom are elected by the Convention each year for a period of three years.

Dr. J. L. Johnson, Jr. was elected as the First President under Convention control to succeed Mr. Rivers at the end of the first year. He took up his work July 1, 1912, and served until his death February 1, 1932. During the administration of Dr. Johnson the following buildings were erected: Tatum Court, Ross Hall, Johnson Hall, the dining hall, the model home, and Mary Ross Hospital. It was during these years that Woman's College became a member of the Mississippi Association of Colleges and Universities, and of the Southern Association of Colleges for Women. Woman's College became a member of the Southern Association of Colleges and Secondary Schools at Jackson, Mississippi, on December 3, 1926. This was the crowning event of Dr. Johnson's administration.

Upon the death of Dr. Johnson, Dr. W. E. Holcomb assumed the presidency March 14, 1932, as the unanimous choice of the

board of trustees. His had been a very successful career as a business man and Christian worker. He was a graduate of Mississippi College, a past president of the Mississippi Baptist State Convention, and a valued member of the Department of Sunday Schools of the State Mission Board.

Dr. Holcomb resigned in 1940 at the close of the session and owing to the general situation, aggravated by the war, the trustees of the college suspended operation, and the plant was used as a housing project for the army officers of Camp Shelby.

In 1922 the Convention voted to the college an annual income of $10,000 until such time as the endowment of the institution should reach $500,000. First efforts toward securing endowment were made in 1925, during which year a sum exceeding $200,000 was given for the purpose by the people of Hattiesburg, wealthy friends elsewhere who were interested, and the Baptist churches of South Mississippi. After this sum had been secured, the Convention in the same year gave $100,000, thereby increasing the endowment to slightly more than $300,000.

The trustees of Mississippi Woman's College in October, 1946, elected unanimously Dr. I. E. Rouse, at that time pastor of the Fifth Avenue Baptist Church, Hattiesburg, to assume responsibility of the college administration. Dr. Rouse took up his work as president and business manager November 1, 1946.

The entire college plant was completely renovated, modernized, and largely refurnished. The program was rewritten for the Woman's College in keeping with demands of a complex society. This program is motivated by an abiding conviction that moral and spiritual values take precedence over the material, and that material values are subordinate to the moral and spiritual as a means to the realization of the primary end—the well-rounded, integrated personality, socially adjusted and dedicated to unselfish service. The endowment has been increased to $450,000 and an enlargement program planned for seven additional buildings at an estimated cost of $1,750,000.

The State Baptist Convention of 1950 brought Mississippi Woman's College under review. New emphasis was being placed upon Christian education. It was noted that Mississippi Woman's College was at the heart of the more densely populated area of the state and held a most strategic location on the great Gulf Coast section of the South.

After three years of survey and review the annual State Convention of 1953 voted a coeducational status to Mississippi Woman's College and authorized a new name in harmony with her new status.

The trustees, in their meeting April, 1954, selected the name *William Carey,* in honor of the "Father of Modern Mis-

sions." This name was approved by the Convention Board in April, 1954. The trustees of William Carey College are in process of planning a larger program and a more adequate plant to take care of an increasing number of students. At this writing the first dormitory for male students is nearing completion and will be ready for occupancy beginning September, 1954.

Accreditation

William Carey College is approved by the State Department of Education as a teacher training college. Our credits are also approved and recommended by the University of Mississippi to all colleges and universities outside of Mississippi. The graduates in education from Carey College have the same professional status in Mississippi as the University. Carey College has been surveyed and accredited by the Mississippi Accreditation Committee.

THE OBJECTIVES OF WILLIAM CAREY COLLEGE

William Carey College is a coeducational liberal arts college whose curriculum is cultural and general rather than vocational, technical, or professional. The college aims, however, to offer those courses which are not only fundamental to a broad, liberal arts education but also those upon which its graduates may build their vocational or professional education. William Carey College seeks to provide a foundation for advanced study in graduate schools or universities equipped to give specialized courses in various fields. The curriculum provides also a well-rounded program for the training of teachers in different fields.

It is the further purpose of the college to offer this liberal arts program to young men and women in an atmosphere which affords opportunities for the promotion of high scholarship, proper adjustment of personality, and development of qualities of leadership. William Carey College seeks to create in every student a sense of social obligation and of true intellectual and spiritual values. The entire program is built around the individual student; the primary aims of faculty and staff are to provide for every student adequate instruction, proper example, judicious counsel, and loving devotion. In realizing these objectives each student attains his highest total personality.

PHYSICAL RESOURCES

The Physical Setting

Hattiesburg, the "Hub of South Mississippi", is the home of William Carey College. Hattiesburg, a city of 30,000, is most strategically located. Four railroads intersect here and the main tributaries of one of the greatest highway systems in the nation

cross at the "hub", making William Carey College most accessible.

South Mississippi is a part of the great Gulf Coast country, the playground of the nation. The climate is most equable. Extremes in temperature are unknown here, being neither hot in summer nor cold in winter. The annual average temperature is 66.6 F. William Carey College is at the center of many points of interest. Within a radius of about two hours' auto drive are Mobile and the azalea trail; Pascagoula; Biloxi, the oldest city of Mississippi; Gulfport; Pass Christian; Bay St. Louis; Jackson, the state capital; old Natchez; and New Orleans, the most unique city of America. Here, amid a profusion of flowers, are found the fine old traditions and well-preserved memorials of the old South, intermingled with the modern progress of the new South.

William Carey College campus is composed of forty acres of land inside the city limits, well situated and adapted to meet the needs of the college and students. Native trees, shrubs, and flowers have been featured in the landscaping of the campus, a fact observed and commented upon by many visitors each year.

Buildings and Equipment

TATUM COURT, the administration building, is situated near the center of the campus. This is the oldest of the buildings, which are all of the colonial pattern, constructed of steel, brick and concrete. In the basement are classrooms for the Home Economics Department—(with sewing room, model bedroom, dining room, and three electric kitchens), Business Education Department, Physical Education Department (swimming pool), store rooms, and heating plant. On the first floor are the office, classrooms, bookstore and the auditorium, equipped with a Chickering grand piano and two manual Pilcher organ with chimes. The auditorium has a seating capacity of 500. On the second floor are the libraries, classrooms, music, art and speech studios, and practice rooms. In the summer of 1947, this building was redecorated, with pastel shades of green, blue, wisteria and yellow inside, and with white trim on the outside.

ROSS AND JOHNSON HALLS, twin dormitories for girls, accomodate two students to the room. Arrangement by suites is featured, each suite comprising two bedrooms and connecting bath, all with outside exposures. Private bathroom facilities are thereby offered each group of four students. The buildings are fireproof, steam heated, and well ventilated. On the first floor are parlors, a reception hall, and bedrooms; while the second floor is taken up with bedrooms. The rooms are equipped with new furnishings. Each girl has a bed with inter-spring mattress and box springs, a study desk, a ladder back chair, a closet, and a dresser that is shared. Venetian blinds cover the windows. Another attractive thing about the bedrooms is the color scheme

carried out in the redecoration of the walls, the pastel shades of blue, green, yellow, and tea rose having been used. The floors are finished in the natural wood.

DORMITORY FOR BOYS. When Woman's College was made coeducational and boys added it was immediately required that housing for boys be constructed. The boys' dormitory is now nearing completion and will be ready for occupancy September 1 for the current session.

The dormitory follows the general pattern of the buildings on the campus and the prospect is that we shall have a splendid colonial building as homelike quarters for boys. The structure is brick veneer with a colonaded porch. The central division is two stories with East and West wings and two South wings one story. The building has fifty rooms, two suites, and six bathrooms, with a large reception room. The building is very commodious with a total footage of 16,000 square feet. There will be ample room for each boy in view of the fact that, since we are specializing in the individual, equipment will be installed on the basis of two boys to the room. There will be individual beds with box springs and mattress, a double closet with sliding panel doors. The design calls for a very beautiful interior finish, mahogany flush doors in steel frames, pastel shaded walls, and oak floors. For a boys' dormitory there will be few living quarters more convenient or comfortable.

THE DINING HALL is equipped to accommodate all resident students and faculty members. This democratic arrangement for all students to have their meals together contributes definitely to the promotion of "The Carey College Spirit." The evening meal on the last Thursday of the month is designated "formal dinner." The Dining Hall is connected by covered walks, on the same floor level with both Ross and Johnson Hall.

MARY ROSS HOSPITAL is an attractive fireproof brick building consisting of three units and represents the most modern ideas in college hospital construction. It contains a dispensary, diet kitchen, nurses' office and apartment, and reception room. There are two wings, one for general and the other for isolating purposes. Each one of these wings contains two private rooms and connecting bath; also a ward, which contains four beds and has connecting bath. There is every facility in this hospital for the proper care of the minor ills of students.

THE SCIENCE HALL is a separate building which houses two lecture rooms, three chemistry laboratories, biology laboratory, physics laboratory and large stock room. This building has had a complete renovation job done on it and is adequate in every way to meet the needs of a liberal arts college of our size.

PRESIDENT'S HOME is a modern brick residence of eight rooms located on the college campus.

CAMPUS ACTIVITIES

Religion and Religious Activities

William Carey College is owned and controlled by the Mississippi Baptist Convention of 1713 cooperating churches, but the sectarian viewpoint is avoided. The Baptist are first among all people who preach and practice religious liberty. Personality is held to be sacred and soul competence is a primary tenet. The historical spirit is preserved and an open mind is encouraged. It is held that every soul is personally accountable unto God and must be free to make valid choices. That being true, all relevant facts are made available to the students as the basis of wise decision and sound judgment.

The Baptists believe in the individual discovery of God and in religion as an inner and vital personal experience. Therefore, Baptists are non-credal and do not seek to impose their belief upon others, but they hold that with the availability of the facts the individual sincerely seeking the truth can and will find vital and positive convictions adequate for proper adjustment with God and man.

Baptist beliefs, as held by Roger Williams and propounded by Thomas Jefferson, are the basis of the American constitution and way of life. They who coerce politically, intellectually, or religiously, violate the genius of the Baptist spirit and polity. It is this evaluation of the individual as the prime social value and the inviolability of the individual soul in pursuit of truth and right that inform and guide Carey College in her pursuit of culture and character for her students. This has been well termed "That Carey College Spirit."

Hattiesburg is a city of churches. The students are required to attend church for public worship on Sunday mornings, but each student is given the privilege of choice as to which church he attends. Religion here is conceived to be the Way of Life. It is not a department of culture or an adjunct to life, but life at its total and highest best. Its end is sound moral and spiritual character, with personality skills developed to permit the greatest social contribution and achieve the highest personal enjoyment.

THE BAPTIST SUDENT UNION serves as a co-ordinating agency of all the religious activities on the campus. Through the Executive Council, which meets weekly, students are encouraged to participate in the various unit organizations of the local churches. Its program includes morning watch, noonday prayer meeting, dormitory prayer service and Master's Minority. The local organization is affiliated with the Student Department of the Southern Baptist Convention, and it has a student director to direct the religious activities of the campus.

THE YOUNG WOMAN'S AUXILIARY is an organization of the W. M. U. Its main purpose is to give the young women a greater vision of the needs on the mission fields and to keep before them God's mission plan for the entire world.

THE MINISTERIAL ASSOCIATION is composed of the ministerial sudents on the campus, and its purpose is to promote Christian fellowship among the ministers. The association meets bi-monthly and cooperates with the B. S. U. in promoting religious activities on the campus.

THE MISSION BAND is composed of students who are mission volunteers or those who have a definite interest in missions. It cooperates with the B. S. U. in promoting extension work at the local jails, hospitals, convalescent home and in the community.

Student Government Association

At William Carey College, as in any large group, individuals must accept certain restrictions in return for certain advantages accruing to the group. It is the desire of the college that every student realize the reasons underlying the principles which govern our living at Carey College. Group experience has proved that the observance of well considered and intelligent regulations is necessary.

Therefore, Carey College assumes that each student, by the fact that he chooses Carey College and that Carey College chooses him, thereby accepts the standards of personal conduct which the college considers fundamental to group living.

In addition, each student assumes personal responsibility for the honor of the college as a Christian institution and he agrees to conduct himself in accordance with her standards.

By unanimous vote of the faculty, Student Government functions under the supervision of a faculty advisor and committee. It aims to develop in the students a high sense of honor and personal responsibility. All students of the college are included in the membership.

The college reserves the right to require at any time the withdrawal of a student whose conduct or academic work is not considered satisfactory by the authorities of the college. A student who is found to be out of harmony with the requirements of the college may be asked to withdraw, though no specific charge is made.

Publications

THE PINE BURR is the annual summary of college life in pictures, views, cartoons, and literary efforts of the students. In humorous and artistic style it presents a record of student life for the current year.

THE COBBLER is a monthly paper which contains a record of all current events of interest in the life of the college. It is edited by a selected staff and affords a number of students with practical experience in journalistic work.

THE REDBOOK is the official organ of the Student Government Association. It contains a statement of the regulations to be observed and gives general information regarding clubs and other student organizations.

Other Student Organizations

THE MUSIC CLUB is organized for the purpose of studying the lives of the great composers and of performing their works by club members. The club meets once a month.

THE HOME ECONOMICS CLUB was organized in 1947. Its main purpose is to integrate the work of the home and family living program. It brings together the various class groups for united effort. The club group provides opportunities for play, recreation, and social contact while the members learn and use parliamentary procedure.

ORCHESIS is an organization sponsored by the Department of Health, Physical Education and Recreation. This group is especially interested in interpretative and creative rhythms. Membership is by invitation and try-out only.

WOMAN'S RECREATION ASSOCIATION is sponsored by the Department of Health, Physical Education and Recreation. This organization conducts the many intramural activities for young women.

GENERAL REGULATIONS

Articles to Furnish

Dormitory rooms are equipped with single beds. Students will be expected to provide towels, sheets, blankets, spreads, pillow cases, pillow, and window curtains.

If students wish floor coverings, such as rugs or carpet squares, they must furnish them. Venetian blinds for windows are furnished by the college.

Each student must have personal laundry bags and all other articles to be laundered plainly marked with indelible ink.

Each boarding student and teacher should furnish a knife, fork, and spoon, to be kept in his own room for use there.

The college furnishes ironing boards for young women, but own iron must be furnished.

Laundry

The college has an arrangement with one of the local laundries to come and pick up all laundry and bring it back to

the campus. The charge is made by the piece. Students find this to be very economical. This same arrangement is made for dry cleaning.

Sunday at Carey College

William Carey College is a Christian College and we expect all students to observe the day as one of worship and rest. On Sunday morning all students attend Sunday School and worship services in their respective churches. Quiet hour is observed from two o'clock to three o'clock. Students attend the evening services of their churches at will.

Visitors

Hospitality is one of the fine traditions of the Old South which Carey College treasures and seeks to inculcate in her students. Alumnae and former students are always welcome. Parents and friends of students should arrange their visits, if possible, at a weekend, or at such time as will not interfere with the regular duties of the student visited. Each student is expected to perform the duty of hostess to his or her guests and make all necessary arrangements for their entertainment and comfort.

Health

The mild and equable climate of Hattiesburg, the situation of the college in the midst of the native pines, on an ample campus, sufficiently remote to escape the smoke and dust of the downtown part of the city, and the sanitary appointment of modern buildings and equipment, all combine to render health conditions at Carey College all that one could desire. The food served in the college dining hall is prepared by expert cooks under the supervision of a capable dietitian. Athletics, swimming, archery, tennis, softball, badminton, and other games furnish opportunity for a well-rounded physical devolpment.

A competent hostess has the oversight of the girls in each dormitory and a registered nurse is a member of the college staff. The college retains the service of a competent physician, and medical service is at all times available for dormitory students; however, surgery and hospitalization requiring special nursing are at the charge of the student.

SUMMER SESSION

William Carey College operates a Summer Session in which a total of fourteen semester hours may be earned. Students graduating at the end of the Summer Session are allowed to earn fifteen semester hours.

The Summer School is divided into two five-weeks terms. Each is a complete unit in itself.

A separate catalogue will be furnished on request.

The Academic Program

I. REQUIREMENTS FOR ADMISSION

General Requirements

To be admitted to William Carey College the student must give evidence that he is qualified in scholarship, character and health to become a student at a Christian liberal arts college.

Before admission can be granted the following must be in the office of the Director of Admissions:

1. A completely filled application form
2. A transcript of the high school credits or previous college work
3. Two letters recommending the student's character and scholarship
4. A certificate of sound health from the student's physician
5. A small photograph of the applicant with the name and date on the reverse side.

These forms should be in the hands of the Director of Admissions at least two weeks before registration.

Admission to the Freshman Class

1. By Certificate from Accredited High Schools: Graduates of all accredited high schools must present a certificate showing the completion of fifteen units of high school work. Of the fifteen units seven are prescribed:

English	3
Mathematics	2
Social Science	2

The remaining nine units may be work done in any high school subject for which the high school gives credit, with the following exception:

> Not more than four units will be accepted in vocational subjects such as home economics, non-academic commerce courses, art or applied music (unless accompanied by an equal amount of theoretical music).

Applicants offering fifteen units but deficient in prescribed units will be admitted to freshman standing on condition that the deficiency shall be made up before admission to senior standing.

2. By Special Examination: Applicants who have not completed fifteen units of high school work and who are over twenty-one years of age may be admitted by special ex-

amination. Such an applicant should prepare and submit a statement concerning all previous education and training. After successfully passing a battery of achievement tests the student may be granted admission.
The high school level General Educational Development Test may be accepted in lieu of the high school certificate.

Admission to Advanced Standing

1. William Carey College will admit only the transfer students who are in good academic standing in the school which they last attended.

2. Only those courses which are consistent with the liberal arts curriculum of William Carey College will be transferred.

3. A maximum of sixty-four semester hours will be accepted from a junior college.

4. The student must offer as many quality points as semester hours. Quality points earned at other colleges will be credited to the student, but he must also earn an equivalent number of quality points as semester hours at William Carey College.

5. A maximum of nine semester hours of credit may be allowed for correspondence study and must carry a grade of at least "C." Correspondence or extension credit will not be accepted in the department of the student's major.

6. In the case of a student transferring with more than three but less than six semester hours credit in a required subject the head of the department concerned will suggest an advanced three hour elective to fulfill the requirement.

7. Four quarter hours transferring as 2 2/3 semester hours are accepted as the fulfillment of three semester hours in required courses. The student cannot be short a fraction of an hour in completing the minimum 130 hours required for graduation even if he has to take another course of larger credit than the required fraction.

8. At least thirty semester hours of the senior work must be done in residence at William Carey College. A minimum of twelve semester hours must be taken in the student's major field. If work from an accredited institution is offered in the major or minor field it must be of like quality as that done at William Carey College, must carry a grade of at least "C" and must have the approval of the division in which the student is doing his major work.

Unclassified Students

1. Special Students:
   (a) With the permission of the Dean a student may register for one or more courses without classification.
   (b) A student is a special student if he enrolls for less than 12 semester hours of work or if he has already received a baccalaureate degree. Students who are seniors are not considered special students even though they are taking less than 12 semester hours of work.
   (c) No special student may be admitted as a candidate for a degree in the regular course unless he meets all normal requirements for admission.
2. Studio Students:
   Local students who do not fulfill entrance requirements for receiving college credit may register for non-credit courses in applied music, art and/or speech.

Readmission of Former Students

A former student of William Carey College who desires readmission must make application to the Director of Admissions. In so doing he will furnish a detailed statement of his activities since leaving William Carey College.

II. ADMISSION PROCEDURE

1. Application should be made on an official application blank furnished by the college.
2. A certificate should be presented from an accredited high school or college, Entrance credits should be sent from the office of the principal or registrar promptly after application is made.
3. If a prospective student is in school at the time he applies for admission he should have a transcript sent showing not only the courses completed but the courses in progress. If he is accepted, a supplementary transcript showing the grades on the courses when completed will be required.

III. ADMINISTRATION OF THE CURRICULUM

The Counseling Program

William Carey College provides for her students a guidance program, that through conferences students may have the bene-

fit of faculty experience for guidance in social adjustment and in the choice and mastery of academic subjects in the pursuit of personality development.

1. Each student who enters the college is assigned to a member of the faculty who acts as his advisor until he chooses his major field. At this time the head of the division of the major field becomes the advisor.
2. A thorough program of orientation for all new students is provided.
   (a) All new students are required to come to the campus several days previous to registration in September for a program of orientation and testing.
   (b) The following tests are given to all students: psychological, vocational aptitude, reading and intelligence. All Freshmen must take a placement test in English.
   (c) All students are given a physical examination.
   (d) The student is introduced to campus life, the social and religious organizations during this period.
   (e) During the first nine weeks' term of the session special classes are held in orientation for new students. These classes are under the direction of the Dean of Students, the Dean of the College and the Head of the Department of Education and Psychology.
3. A continuous program of guidance is provided throughout the student's college course.
   (a) Results of all standardized tests are recorded on the official transcript.
   (b) A folder containing guidance records for each student is filed in the Dean's office.
   (c) Each counselor has a folder on each counselee containing:
      (1) A duplicate of all counseling forms required by the Dean's office.
      (2) A record of all interviews with the student other than those scheduled by the Dean's office.
      (3) A sheet with the names of all counselees and a record of the dates of all interviews. A glance at this reminds the counselor of any student he might be overlooking.
      (4) Four counseling periods are scheduled during the session, in addition to assistance and approval at the time of registration, as follows: soon

after release of grades to the counselor at the end of the first month, end of nine weeks, end of first semester, end of first nine weeks of second semester.

(5) A card is distributed in duplicate to the counselor for each counselee, one copy to be returned to the Dean's office and one retained for the student folder of the counselor.

Classification of Students

The academic work of William Carey College is organized into four classes: The Freshman class, the Sophomore class, the Junior class and the Senior class. The following constitute the requirements for membership in each of the classes:

1. A Freshman is a student who has satisfied all entrance requirements and is pursuing an approved course of at least twenty-eight semester hours.
2. A Sophomore is one who has completed thirty semester hours and has twenty-four quality points.
3. A Junior is one who has completed sixty semester hours and has fifty quality points.
4. A Senior is one who has completed ninety semester hours and has ninety quality points.

Academic Credits and Class Load

The academic year of William Carey College runs from June to June. It is divided into a ten weeks' Summer Session and two semesters of eighteen weeks each. The semester hour is the unit of credit. One semester hour is earned for each class hour per week or for each two hour laboratory period per week.

The normal course load is sixteen hours each semester. Students with an average of 2.5 for the preceding semester will be permitted to carry a load of eighteen hours exclusive of activity points. A twelve hour load is required for full-time classification.

Change of Program

1. No change of schedule either in dropping a course scheduled or adding a course not scheduled will be permitted except by permission of the Dean and recommendation of head of the department concerned.
2. A fee of one dollar will be charged for each change of schedule unless the change is requested by the college authorities.

3. No student will be allowed full credit for a course that has had six class meetings before he enters the class.

4. Courses dropped within the first two weeks of a semester will not be recorded. Courses after the first two weeks and before the middle of a semester are recorded as WP (withdrawn passing) or WF (withdrawn failing), and courses dropped after the first nine weeks are recorded as failures. Any student dropping a course at any time without the required approval receives an F in that course.

Withdrawal

1. A student desiring to withdraw from the college must obtain permission from the Dean.

2. Refunds upon withdrawal will be made only on condition that this permission is granted by the Dean and according to the outline in the catalogue under the heading of "Financial Regulations."

3. No student will be granted a report of grades or a transcript of any kind until his account is settled in the business office.

4. Enforced withdrawal is inflicted by the faculty and administration upon students who do not pass the required number of hours. Each student is expected to pass a minimum of nine semester hours of work per semester. Any student failing to pass this required number of hours during any semester is put on probation for the following semester and if he fails to pass the required number of hours the second semester he is automatically excluded from William Carey College for a period of one semester. Then he must apply for admission to the Director of Admissions if he desires reinstatement. When readmitted he resumes probationary status.

Attendance Regulations

1. Since credit is reckoned in terms of the hours of actual class attendance, it is necessary that students attend regularly the classes in which they are enrolled. Students are responsible for meeting their classes at the appointed hours and places.

2. No cuts are allowed.

3. An unexcused absence, immediately preceding or following a holiday will be counted as two unexcused absences.

4. All excused absences, exclusive of those for illness, must be arranged for in advance.

5. All faculty members are requested to submit daily reports of all absences.
6. The Dean of Instruction or the President of the College grants excuses for absences with justifiable excuse. Excused absences are reported to instructors by the office of the Registrar. The College Nurse grants excuses for absences caused by illness for time spent in the College Infirmary. Day students are requested to inform the Dean by telephone of illness in order that the office of the Registrar might keep proper record of excused absences. Excuses covering absences do not relieve the student of the responsibility for the work done during the absence. Chapel absences are to be excused in the same manner as absences from classes.
7. An unexcused absence from class carries as penalty the deduction of six points from the term average. An unexcused absence from chapel carries the penalty of the deduction of one quality point.
8. Three tardies to a class within a term (nine weeks) are equal to one unexcused absence.

Transcripts

The transcripts are issued by the office of the Registrar.

1. An official transcript is one bearing the signature of the Registrar and the seal of the college, and is mailed directly to whatever official may be designated.
2. An unofficial transcript does not bear the college seal. When a transcript is given to the person whose credits are transcribed thereon, it does not bear the seal, and the college assumes no responsibility for its accuracy after it leaves the Registrar's office.
3. One transcript is issued without charge. Each transcript after the first costs one dollar.
4. Transcripts of credits will not be issued for those whose accounts are in arrears.

Examinations, Grades and Quality Points

1. Examinations are given during the eighteenth week of each semester. Term tests are given during the ninth week of each semester.
   (a) No term tests or examinations may be held at any other time except that designated by the administration.
   (b) No student is regarded as having a right to a private term test or semester examination.

(c) A student who is absent from the term test or semester examination without valid reason approved by the Dean forfeits credit for the semester.

2. Seniors will be exempt from final examinations in all the courses of their last semester before graduation in which they have maintained a grade of "C" up to two weeks before final examinations. Seniors instead will be given a comprehensive examination in the major subject.

3. Term grades are issued to students only; semester grades are issued to students and to parents. The semester average is obtained by counting the examination grade as one-third and the two term grades as one-third each. Grades will be reported as follows:

		Points per Semester Hour
A	92-100	3
B	86-91	2
C	78-85	1
D	71-77	0
E	65-70	0
F	Below 65, Failure	0

A grade of E is a conditional failure and may be removed by making a passing grade on a special examination. The removal of such condition must be accomplished during the first two weeks of the next semester or the grade automatically becomes an F. A grade of E cannot be raised above the grade of D.

A grade of I (Incomplete) indicates that the student has received permission to complete the work of a course after the end of a semester. This work must be made up within the first three weeks of the student's next semester of residence. If the work is not completed within the allotted time the grade automatically becomes a failure. Work made up within the allotted time may receive any final grade between A and F.

Scholastic Honors

1. Dean's Honor List and Freshman Honor Roll
Those meeting the following requirements are included on the Dean's List (for upperclassmen) or Freshman Honor Roll:

(a) The student must carry not less than four literary subjects during the semester on which the scholastic average is based.

(b) The scholastic average must be at least 2.5.

(c) The grades for the semester on which the scholastic average is based must include no mark lower than a "C."

2. Graduation Honors

(a) A student who has been in residence for at least two years and who has earned a 2.5 quality point average shall be graduated "cum laude" (with honor).

(b) A student who has been in residence for at least two years and who has earned a 2.7 quality point average shall be graduated "magna cum laude" (with great honor).

(c) A student who has been in residence four years and who has earned a 2.9 quality point average, with no grade below "B," shall be graduated "summa cum laude" (with highest honor).

(d) No student may be graduated with honor who has been suspended, dismissed, expelled or who has received a demerit.

IV. REQUIREMENTS FOR DEGREES

William Carey College confers three degrees: the Bachelor of Arts, the Bachelor of Science and the Bachelor of Music. It is expected that the candidate for the degree will, during his first two years in college, pursue a course of study designed to lay a broad cultural background. This consists of certain prescribed courses listed below:

1. Minimum Requirements for All Degrees:

	Semester Hours
English 101-102, 201-202	12
History 101-102	6
Biology 101-102	6
Physical Science (3 hours may be in Math)	6
Fine Arts	3
Religion	6
Speech 131	3

Upper-level hours (hours in courses numbered 300 or above)	40
Hours earned in senior work in residence at William Carey College	30
Hours in the major earned at William Carey College	12
Hours in the minor earned at William Carey College	6

2. Additional Requirements for the Bachelor of Arts degree:

Foreign Language (2 years in same language)	12
Electives	69
(Philosophy 331 is strongly recommended as three hours of electives.)	
	81

3. Additional Requirements for the Bachelor of Science degree:

(This degree requires a major in one of the natural sciences [Biology, Chemistry, Mathematics, Home Economics or General Science], Economics and Business Administration or Elementary Education)

Science or Mathematics electives	6
Electives	75
	81

4. Additional Requirements for the Bachelor of Music degree may be found on page 57.

5. The candidate for a degree will be required to complete, with an average grade of "C" or above, a minimum of one hundred thirty semester hours of which not more than eight semester hours are extra curricular.

6. Extra Curricular Credits:
The following extra curricular hours, to a maximum of eight semester hours may be applied towards the one hundred thirty semester hours required for graduation:

Physical Education (Required)	4
Physical Education (Elective)	4
Editor, The Cobbler	3
Business Manager, The Cobbler	3
Editor, The Pine Burr	3
Business Manager, The Pine Burr	3
Chorus	2
Band	6
Debate	6

(Only one semester hour in each activity may be earned in each semester, except by the Editor and Business Manager of the Cobbler and The Pine Burr.)

7. A comprehensive examination in the student's major field of study.

Before receiving the Bachelor of Arts or Bachelor of Science degree the student must pass a comprehensive

examination in the field of major study. This examination is in lieu of the final examinations in the courses of the semester just preceding graduation. If a Senior is not averaging a "C" in a course, he will not be exempt from any examination.

The comprehensive examination requires at least three hours. It is usually a written test, but a section of it may be given orally.

The time of the comprehensive examination is usually two weeks prior to graduation.

Those who fail a comprehensive examination may take a re-examination after a lapse of two months. If a student fails a second examination, he is not eligible for re-examination until he has completed another semester of study at William Carey College.

Comprehensive examinations are not given to Bachelor of Music candidates. Candidates for the degree of Bachelor of Arts with a major in music will be given a comprehensive examination, or a graduating recital may be allowed to fulfill this requirement.

8. Majors and Minors:

Every student by the end of the sophomore year must have chosen a major and a minor from the seven divisions of the curriculum. The following outline shows the possible emphasis within the several divisions:

HEALTH, PHYSICAL EDUCATION AND RECREATION

The purpose of the required program in Health, Physical Education and Recreation is to provide instruction for the development of knowledge and skills in a number of wholesome physical activities, of a recreational nature in which a student can participate, not only in college but in leisure time recreation pursuits in later life. It is the belief of this division that such a program will contribute to an intelligent understanding of the individual students regarding personal health and hygiene in relation to daily living and social well-being.

It is our purpose to provide the required training for teachers, recreation leaders, and physical therapists in the field of Health, Physical Education and Recreation; therefore, this college offers a major and minor in the field of Health, Physical Education and Recreation.

In addition to the required program, the college provides an extensive program of intramural sports of seasonal activities such as softball, volley ball, touch football, basketball, tennis, golf, table tennis, and swimming. Here opportunity is offered to every student to participate in some pleasurable and wholesome form of recreation.

Since the emphasis in education is being placed on the total personality development of each individual, students and parents should realize the importance of that part of education which comes through participation in physical activities.

Intercollegiate Competition: Competition is provided in football, basketball, track and field events and baseball.

Requirement: With these purposes in mind the college requires that all young men and young women have three hours of active physical education a week during the Freshman and Sophomore years, making a total of 4 semester hours of credit for graduation. All students are required to have 3 semester hours in Health for graduation.

Excuses: No one will be excused from participation in the required program in Health, Physical Education and Recreation. Provision will be made for the physically handicapped student. Students who are unable to participate in any form of Physical Education or restricted activity will be permitted to take courses in theory subjects of Physical Education to make up for the deficiency in hours incurred by not participating in the required activity classes. It is suggested that courses such as Archery, First Aid, Recreational Leadership, Campcraft, and Restricted Recreation be substituted for the required activity courses.

Medical Examination: All students entering Carey College will be given a medical examination by the college physician.

Uniform: The regulation uniform for women consists of white cotton shirt, green shorts, white socks and white tennis shoes. A regulation swim suit is required of all students in swimming classes. The shirt, shorts and swim suits must be purchased from the College Book Store.

The regulation uniform for men consists of white tee shirts, green shorts, white socks and white tennis shoes.

Transfer Students: All transfer students who do not have four hours credit in physical education courses and three hours credit in health will be required to make up this deficiency.

Veterans will be given one hour's credit with a grade of "C" for each six months in service up to the maximum of twenty-four months.

State Department of Education Ruling for Teachers of Health, Physical Education and Recreation and Elementary School Teachers: All full-time teachers in Health, Physical Education and Recreation must have twenty-four semester hours of college credit in this field. William Carey College requires thirty semester hours for a major.

All part-time teachers in Health, Physical Education and Recreation, including athletic coaches, must have twelve semester hours of college credit in this field.

Elementary school teachers must have six semester hours of college credit in Health, Physical Education and Recreation.

DIVISION OF FINE ARTS

The Division of Fine Arts consists of two branches: (1) art and (2) music.

ART

The general purpose of the courses in art is (1) to provide a reasonable approach to and an appreciation of the visual arts in cultural living and (2) to provide a basis for specialization for students intending to enter the field of the visual arts as artists or teachers.

No major is offered in art.

A minor consists of 18 semester hours in the department.

11-12. *Art Structure.*

A basic course requiring no special ability or previous experience. Planned to give the student an understanding of, and practice in, the elements of design in the visual arts. MUSIC

Music is treated as an organic part of the work of the college, and music in all its branches is regarded as having an academic as well as vocational and cultural value. The aims of the courses in Music are threefold: (1) To offer to every student an opportunity for training and participation in this field of general culture; (2) To give to the student, who chooses to specialize in performing or teaching, intensive professional training in the musical field of his particular interest; (3) To train for musical leadership in Christian Service.

To meet the applied music requirements for a B. A. degree with music as a major (concentration in applied music), or a B.M. degree with an instrumental or voice major, each student will be required to receive credit for one year of applied music for each year he is on the campus of the College. Students transferring from accredited colleges with credit in applied music will receive full credit for this work but will be required to take a minimum of one year of applied music for each year they are in residence.

A college student may enroll for an applied music course without credit. All students with either a major or a minor in music must pass an examination at the end of each semester in applied music. They are required to attend recitals, concerts, and lectures on music given under the auspicies of the Music Department. They are required to participate in a choral or an instrumental organization each semester they are on the campus unless specifically excused by the director.

Practice requirements are based upon the amount of credit to be received for the course: four semester hours—two hours per day; three semester hours—one and one-half hours per day; two semester hours—one hour per day. All courses in applied music require two lessons per week, with the exception of the students taking applied music without credit, in which case it may be one or two lessons per week. The schedule for private lessons and for practice hours is arranged by the director and the teacher after enrollment is completed. All practice is to be done in the practice rooms furnished by the Music Department unless excused by the director.

Recital Requirements

A senior in the course leading to a B.M. degree with an instrumental or voice major is required to give a graduation recital unassisted.

A senior in the course leading to a B.A. degree with music as a major (Concentration in Applied Music) or B.M. degree with

Music Education as a major is required to give a graduation recital, with or without assistance, at the discretion of the director.

A junior in the course leading to a B.M. degree should give a recital with assistance in order to meet performance requirements of B.M. degree.

A student who minors in Music is required to participate in recitals at the discretion of his instructor.

Opportunities to hear music. The student at the College has ample opportunities to hear music in public performance. In addition to the regular Community Concert series, the music faculty gives recitals, and there are senior and junior recitals and choral programs throughout the year.

The Music Library provides an extensive collection of the best books, records and scores available for music education and for the general music student.

The minimum requirements for a major in Music are as follows:

B.A. (Concentration in Applied Music): Applied Music 16 hours; Theory 23-24 hours distributed as follows: Music 107-108, 207-208, 407-408 and Advanced Theory 3-4 hours; History of Music 6 hours and Advanced courses in Music Culture 4 hours.

B.A (Concentration in Music Theory): Theory 30 hours distributed as follows: Music 107-108, 207-208, 307-308, 407-408, 409, 410; Piano 8 hours; History of Music 6 hours and advanced courses in Music Culture 4 hours.

B.M. (Instrumental Major): Applied Music 32 hours; Theory 24 hours distributed as follows: Music 107-108, 207-208, 307-308, 407-408; Music History 6 hours and Conducting 4 hours.

B.M. (Voice Major): Applied Music (Voice 32 hours, Piano 8 hours); Theory 24 hours distributed as follows: Music 107-108, 207-208, 307-308, 407-408; Music History 6 hours; Conducting 4 hours. Language 18 hours.

B.M. (Music Education Major): (1) Theory 22-24 hours distributed as follows: Music 107-108, 207-208 and 6-8 hours of advanced theory. (2) Musical Performance 42-44 hours, distributed as follows: Conducting 4 hours, Ensemble 2-4 hours, Applied Major 18 hours, Piano 8 hours, Voice Class 4 hours, Instrumental Classes 6 hours. If piano is applied major, the student should elect eight

additional hours in musical performance. These eight hours need not all be in one medium, however. (3) Professional Education 24 hours distributed as follows: Education 341; Psychology 372, Psychology 370 or Psychology 474; Observation and Student Teaching; and Music Education Methods and Materials.

The minimum requirements for a minor in music are 21 hours, distributed as follows:

Music Theory 3 hours, Music Culture 4 hours, Applied Music 12 hours, Ensemble 2 hours.

Any music student showing a deficiency in any area of their major or minor will be required to include additional courses in their course of study to remove this deficiency. All music students are required to offer a minimum of 2 hours ensemble credit, a maximum of 4 hours will be accepted.

The following suggested course outlines are designed to assist the student in planning his course of study. It is not required that they be followed specifically as outlined as necessary changes may be made to fulfill the professional needs of the student. Any changes, however, must be made with the approval of the student's major advisor and the director of music.

A course in both prescriptive and descriptive grammar. Three hours a week.

Credit: Three Semester Hours.

401. *Advanced Composition.*

A course in expository writing for advanced English students. Three hours a week.

Credit: Three Semester Hours.

402. *The Teaching of English in the Secondary School.*

A course in methods designed for those who intend to teach English on the secondary level. Same as Education 345. Three hours a week.

Credit: Three Semester Hours.

403. *Newswriting and Reporting.*

A study of the subject matter of news and news stories and practice in the writing of different types of news. Three hours a week.

Credit: Three Semester Hours.

404. *The Modern Novel.*

A study of masterpieces in novels in the twentieth century. Three hours a week.

Credit: Three Semester Hours.

405. *Modern Poetry.*

A study of contemporary English and American poets. Three hours a week.

Credit: Three Semester Hours.

406. *Modern Drama.*

A course comprehending modern English and American drama. Three hours a week.

Credit: Three Semester Hours.

409. *Creative Writing.*

A course designed to provide practice and guidance for students interested in creative writing. Three hours a week.

Credit: Three Semester Hours.

FRENCH

111-112. *Elementary French.*

An elementary course in grammar and reading with oral drill. Three hours a week during the year.

Credit: Six Semester Hours.

Note: No credit will be given on 111-112 if student has had two years or more high school French.

211-212. *Intermediate French.*

This course includes a review of pronunciation and grammar and selected readings of novels, dramas and short stories. Three hours a week during the year.

Credit: Six Semester Hours.

Prerequisite: French 111-112 or two years of high school French.

311-312. *Survey of French Literature.*

This course consists of a survey of French literature and the reading of representative masterpieces. Collateral reading and individual reports are required. Three hours a week during the year.

Credit: Six Semester Hours.

315. *The Teaching of Modern Languages.*

Same as Education 345.

Credit: Three Semester Hours.

411-412. *Nineteenth Century Literature.*

A study of nineteenth century poetry and drama. Three hours a week during the year.

Credit: Six Semester Hours.

413-414. *French Literature of the Seventeenth Century.*

A study of drama of the Golden Age of French literature. Three hours a week during the year.

Credit: Six Semester Hours.

SPANISH

121-122. *Elementary Spanish.*

An elementary course in grammar and reading with oral practice. Three hours a week during the year.

Credit: Six Semester Hours.

Note: No credit will be given on 121-122 if student has had two years or more high school Spanish.

221-222. *Intermediate Spanish.*

This course is intended to increase the student's ability to read more difficult Spanish. It includes a review of pronunciation and grammar and selected readings. Three hours a week during the year.

Credit: Six Semester Hours.

Prerequisite: Spanish 121-122 or two years of high school Spanish.

321-322. *Survey of Spanish Literature.*

This course consists of a survey of Spanish literature and the reading of representative masterpieces. Collateral reading and individual reports are required. Three hours a week during the year.

Credit: Six Semester Hours.

325. *The Teaching of Modern Languages.*

Same as Education 345.

Credit: Three Semester Hours.

421-422. *Spanish American Literature.*

This course includes a study of the works of some of the more important Spanish American authors primarily in the field of the novel and the short story. Three hours a week during the year.

Credit: Six Semester Hours.

423-424. *Advanced Spanish Literature.*

The nature of this course will depend upon the needs and interests of the group concerned. A course in Spanish literature of a particular period might be offered. Three hours a week during the year.

Credit: Six Semester Hours.

SPEECH

Candidates for the B.A. Degree, desiring to elect speech as a minor must complete eighteen hours of speech from courses herein listed beyond Spoken English 131.

131. *Spoken English.*

Required of freshmen. The course involves principles of reading and speaking, oral composition and practice in elementary reading activities. The course also includes study of diction from phonetic basis and training for social contracts and platform. Three hours a week.

Credit: Three Semester Hours.

132. *Vocal Expression.*

Further study in conversational form and technique through the study of practical material, speaking and reading activities and dramatic rehearsals. Three hours a week.

Credit: Three Semester Hours.

133. *Vocal Expression and Applied Principles in Private Lessons and Dramatic Rehearsal.*

Two hours a week.

Credit: Two Semester Hours.

134. *Vocal Expression.*

Private lessons. This course gives interpretation of various forms of literature. Two hours a week.

Credit: Two Semester Hours.

232. *Voice and Diction — Phonetics.*

Analysis of modern English pronunciation. This course aims to train the student in speech improvement, through phonetics and ear training and to establish a pleasing speaking voice. Some practice is also given in choric speaking and verse choir. Prerequisite: 131. Three hours a week.

Credit: Three Semester Hours.

233. *Oral Reading.*

This is a course in interpretation of various forms of literature. Prerequisite: 131-132. Three hours a week.

Credit: Three Semester Hours.

234. *Public Speaking and Debate.*

An optional elective course open to students in the Speech Department who have completed 131-132, 232, 233 and to juniors and seniors who are majors in social science or English. Two hours a week.

Credit: Two Semester Hours.

235. *Play Production (Lecture and Laboratory).*

The course includes a study of stage craft and scenic design with practical application in costuming and in making of scenery and work in organizing a stage production. Prerequisite: 131 for speech majors. Also open to juniors and seniors in the

Speech Department who are majors in English. Three hours a week.

Credit: Three Semester Hours.

331-332. *Dramatic Interpretation.*

Instruction in theory and technique of acting with practice in dramatic production and in advanced interpretation and the technique of reading dramatic literature on the platform. Prerequisite: Speech 131-132, 232. Taken with private lessons, three hours a week during the year.

Credit: Six Semester Hours.

432. *Advanced Public Reading and Recital.*

This course includes work in private lessons. Prerequisite: 331-332. Three hours a week.

Credit: Three Semester Hours.

433. *Methods and Principles of Teaching of Speech.*

A general review with special reference to technique, survey of principles and conduct of speech activities in high school. This course is designed for speech minors but open to seniors majoring in English or social science. Prerequisite: Speech 131 and one other speech course. Two hours a week.

Credit: Two Semester Hours.

DIVISION OF NATURAL SCIENCE

The Division of Natural Science consists of five branches: (1) Biology, (2) Chemistry, (3) Physics, (4) Mathematics and (5) Home Economics.

The aims of the division are the following: (1) To provide culture and appreciation of things of the animate and the inanimate world, (2) To correlate the basic facts and ideas of the various fields of science, (3) To furnish a foundation for further study in technical and professional schools and (4) To provide courses which will prepare students to teach science in elementary and secondary schools or to pursue successfully graduate study in their chosen fields.

Pre-professional Training

Students who are planning to enter professional schools for scientific careers such as medicine, dentistry, or nursing are urged to complete requirements for a degree before beginning their professional training. For these professions the student should take a major in either biology, chemistry, or general science with a minor in one not chosen for a major. If the student finds it impossible to complete a degree, he is advised to include the following courses in his pre-professional program:

English	6 hours
Foreign language, preferably French or German	12 hours
Biology	18 hours
Chemistry	22 hours
Physics	8 hours
Mathematics	6 hours
Psychology	6 hours

OUTLINE OF A STUDENT'S WORK FOR A MAJOR

The student majoring in science must meet all of the requirements for the Bachelor of Science degree. (See page 28).

With the major emphasis on Biology

Required: 36 semester hours composed of Biology 101, 102, 201, 202, 301, 302, 403, 404, and Chemistry 111, 112.

OUTLINE OF A STUDENT'S WORK FOR A MINOR

Required: 18 semester hours in Biology.
18 semester hours in Chemistry.
18 semester hours in Mathematics.
18 semester hours in Home Economics selected from the following courses: 141, 241, 341, 142, 242, 344, 347, 348, 349.

BIOLOGY

101-102. *General Biology.*

An introduction to the facts and principles underlying plant and animal biology. The laboratory work consists of exercises to familiarize the student with the structure and life processes of plants and animals. Lectures and recitations, two hours; laboratory, two hours a week during the year. Prerequisite for all advanced courses.

Credit: Six Semester Hours.

201. *General Zoology.*

A study of the morphology, physiology and relationships of all phyla of the animal kingdom. Laboratory work consists of the study of representative forms not included in Biology 101-102. Lectures and recitations, three hours; laboratory, two hours a week.

Credit: Four Semester Hours.

202. *General Botany.*

A study of morphology, physiology, and life histories of representative plants, with special consideration of seed-bearing plants. Laboratory work consists of the study of typical forms in each division of the plant kingdom. Lectures and recitations, three hours; laboratory, two hours a week.

Credit: Four Semester Hours.

301. *Human Physiology and Anatomy.*

The object of this course is to give the student a general understanding of the structure and functions of the tissues and organ systems in the human body. Laboratory examinations of preserved specimens, charts, models, microscope slides, and demonstration materials from the human and closely related mammals supplement the lecture and reference studies. Recitation and lectures, three hours; laboratory, two hours a week.

Credit: Four Semester Hours.

302. *General Bacteriology.*

A study of micro-organisms with special emphasis on representative molds, yeasts, and bacteria as related to household economics, various industries, agriculture, and public health. Laboratory work includes the preparation of culture media, growing and studying of various representative species of bacteria, yeasts and molds. The development of routine technique in handling and studying bacteria is emphasized. Prerequisite: Chemistry 111-112. Lecture, two hours; laboratory, four hours a week.

Credit: Four Semester Hours.

403-404. *Vertebrate Zoology.*

A study of the morphology, life processes, and relationship of representative vertebrates. In the laboratory selected verte-

brates are dissected and examined. Lecture, one hour; laboratory, four hours a week.

Credit: Six Semester Hours.

405-406. *Special Problems.*

This course will allow properly qualified students to undertake special studies in assigned fields. Only students who have the consent of the instructor will be allowed to register for the course. Hours to be arranged.

Credit: Six Semester Hours.

408. *Genetics.*

A study of heredity, including considerations of the material basis of heredity, the question of the inheritance of acquired characteristics, the laws which govern the distribution of unit factors, and the application of these laws to human inheritance. Three hours a week.

Credit: Three Semester Hours.

CHEMISTRY

Pre-medical students, pre-medical technologists, home economics majors, and those who plan to major in science are advised to begin chemistry not later than the sophomore year, because of the necessary sequence of courses.

111-112. *General Inorganic Chemistry.*

An introductory course laying stress on the fundamental principles of the science. It is prerequisite to all other courses in chemistry. A thorough understanding of chemical reactions is required. Three hours lecture and two hours laboratory each week during the year.

Credit: Eight Semester Hours.

115. *Survey of Physical Science.*

A non-laboratory course which furnishes a background in the physical sciences for those who are not working toward a major in any science. Three hours a week.

Credit: Three Semester Hours.

211. *Qualitative Analysis.*

The theories of solutions, solubilities, ironization, precipitation, etc., are studied in detail, and their applications to the separation and identification of the metallic and acid radicals constitute the subject matter of this course. Correct manipulation processes and laboratory technique are stressed. Three two-hour periods each week.

Credit: Three Semester Hours.

212. *Quantitative Analysis.*

Both volumetric and gravimetric processes are studied and made to supplement each other. The theories underlying the

various processes are considered in detail. Three two-hour periods each week.

Credit: Three Semester Hours.

315. *Methods and Materials for the Teaching of Science in Secondary Schools.*

This course is designed to give training to those who plan to teach high school science. Selections of subject matter and materials to be used will be emphasized. This course gives credit in the division of education as Education 345. Three hours a week.

Credit: Three Semester Hours.

317-318. *Organic Chemistry.*

A systematic study of the aliphatic and aromatic series of some of the more modern theories as are illustrated by organic compounds. Three hours lecture and one two-hour laboratory period each week during the year.

Credit: Eight Semester Hours.

411-412. *Theoretical Chemistry.*

This is an elementary course in physical chemistry without the rigorous mathematical application. Two lectures and one two-hour laboratory period each week during the year. Course 411 may be taken without 412.

Credit: Six Semester Hours.

417. *Food and Biochemistry.*

A study of carbohydrates, fats, proteins, water and minerals, together with a chemistry of these compounds, their digestion and assimilation as food materials. Enzymes, hormones, vitamins, and the like, also have a place in the discussion. Two hours theory and two hours laboratory each week.

Credit: Three Semester Hours.

419. *Advanced Quantitative Analysis.*

This course is a continuation of 212, which is a prerequisite. The field is extended to simple organic chemistry and such methods as will be of interest to the medical technologist or any other field in which the student may have an interest.

Credit: Three Semester Hours.

PHYSICS

121-122. *General Physics.*

A study of the fundamental principles of matter, heat, mechanics, light, sound, magnetism and electricity. Three hours theory and two hours laboratory each week during the year.

Credit: Eight Semester Hours.

129. *Physics of Music.*

A course in physics designed especially for students of music. It is a study of the nature and transmission of sound, interference, hearing, resonance, pitch, quality, musical intervals and temperament, musical strings and stringed instruments, and acoustics of rooms. Lectures two hours, laboratory two hours a week.

Credit: Three Semester Hours.

MATHEMATICS

130. *Review of High School Mathematics.*

A course required of students who are deficient in Mathematics.

Credit: None.

131. *College Algebra.*

This course is a brief summary of elementary algebra, linear equations, rectangular coordinates, exponents and quadratic equations. Three hours a week.

Credit: Three Semester Hours.

132. *Plane Trigonometry.*

A study of trigonometry functions: equations, identities, theory of projection, right triangles, oblique triangle, logarithms. Three hours a week.

Credit: Three Semester Hours.

134. *Advanced College Algebra.*

A continuation of Mathematics 131, including the binomial theorem, progression, complex numbers, permutations and combinations, probability and determinants. Prerequisite: Mathematics 131. Three hours a week.

Credit: Three Semester Hours.

231. *Analytic Geometry.*

A study of algebraic methods in solving geometric problems: curves, cartesian coordinates, straight line, circles, parabolas, ellipses, hyperbola, transformation. Prerequisite: Mathematics 131 and 132. Three hours a week.

Credit: Three Semester Hours.

232. *Plain and Solid Analytic Geometry.*

A continuation of Mathematics 231, including polar coordinates, higher plane curves, solids. Prerequisite: Mathematics 231. Three hours a week.

Credit: Three Semester Hours.

331. *Differential Calculus.*

A study of differentiation and applications, transcendental functions, parametric and polar equations. Prerequisite: Mathematics 231. Three hours a week.

Credit: Three Semester Hours.

332. *Integral Calculus.*

A study of integration, definite integral applications. Prerequisite: Mathematics 231. Three hours a week.

Credit: Three Semester Hours.

431. *Differential Equations.*

A study of ordinary and partial differential equations, series. Prerequisite: Mathematics 332. Three hours a week.

Credit: Three Semester Hours.

432. *Differential Equations.*

A continuation of Mathematics 431, including equations of hypogeometric series, second order. Prerequisite: Mathematics 431. Three hours a week.

Credit: Three Semester Hours.

HOME ECONOMICS

Clothing and Textiles

141. *Clothing Selection and Construction.*

A study of fundamental principles of garment construction and selection; use of commercial patterns in construction of simple garments; and application of the principles of color and design to the selection of a wardrobe suited to the coloring, personality, and activities of the individual. Art 11 is prerequisite or parallel. Lecture, one hour; laboratory, four hours each week.

Credit: Three Semester Hours.

241. *Textiles and Clothing.*

A course designed to develop good judgment in buying, using, and caring for clothing and household materials and to enable the student to identify and classify standard fibres and fabrics. Prerequisite: Home Economics 141. Lecture, one hour; laboratory, four hours each week.

Credit: Three Semester Hours.

341. *Housing and Interior Decoration.*

A course planned to give real insight into the need of homemaking based on a high type of living, to discover trends in housing and house furnishing and to give some knowledge of developments in principles of design and color in relation to the

selection and arrangement of house furnishings. Three hours lecture. Special field trips.

Credit: Three Semester Hours.

441. *Clothing for the Family.*

A study and selection of clothing for the family, including selection and care of garments suitable for various members of the family with special consideration of economic problems. Prerequisite: Home Economics 141 and 241. Lecture, one hour; laboratory, four hours each week.

Credit: Three Semester Hours.

Food and Nutrition

142. *Food Study and Preparation.*

A study of the source, composition, and economic value of foods, including practice of cookery in the planning, preparation, and serving of simple, balanced meals in family groups. Fee $5.00. Prerequisite or parallel, Chemistry 111-112. Lecture, one hour; laboratory, four hours.

Credit: Three Semester Hours.

242. *Meal Planning and Table Service.*

An advanced course in which a study is made of the problems involved in the purchase of food and in the planning, preparation, and serving of meals, both formal and informal. This course includes the study of the selection of silver, linen, china, and glassware, also table decorations, with field trips to the stores where they may be purchased. Fee $5.00. Lecture, one hour; laboratory, four hours each week.

Credit: Three Semester Hours.

342. *Elementary Nutrition and Dietetics.*

A study of the adequate diet for normal adults and children, including planning, preparing, and serving balanced meals for all members of the family. It also includes a study of chemistry of digestion. Fee $5.00. Lecture, two hours; laboratory, two hours each week.

Credit: Three Semester Hours.

344. *Home Nursing.*

A study and demonstration of techniques in caring for the sick at home. Problems considered are care of the patient in bed, special diets, care of the sick room, and the home medicine cabinet.

Credit: Two Semester Hours.

345. *Methods of Teaching Home Economics.*

A course in the development of the home economics curriculum, in equipment and in methods of teaching in various types of

schools. Student teaching opportunities are provided, same as Education 345. Lecture, two hours; laboratory, three hours each week.

Credit: Three Semester Hours.

347. *Family Relationships.*

A course designed to develop an understanding of factors that play a part in successful family life and to prepare one for family living. Recitations and lecture three hours a week.

Credit: Three Semester Hours.

348. *Household Equipment.*

A study of fundamentals involved in the selection, operation, care, and efficiency of household equipment and other problems of household operation. Three hours a week.

Credit: Three Semester Hours.

349. *Home and Family Living.*

Your home and you. Management of family, its resources, its problems of everyday life. Lecture, two hours, laboratory, two hours. For men and women.

Credit: Three Semester Hours.

442. *Experimental Cookery.*

A study of elementary research of food preparation, experimentation to determine factors affecting standard products, and a study of large quantity cooking. Fee $5.00. Lecture, one hour; laboratory, four hours each week.

Credit: Three Semester Hours.

443. *Child Development.*

A study of the needs of the child as to food, rest, habit formation and recreation from prenatal period through school period. A special study of behavior problems. Prerequisite: Senior standing. Lecture, three hours with special field trips.

Credit: Three Semester Hours.

444. *Economics of the Home.*

A study of problems of consumers and standards by which consumers may judge available merchandise. Also, a study of wise use of time, energy, money and resources of the home. Lecture, three hours each week.

Credit: Three Semester Hours.

DIVISION OF RELIGION AND PHILOSOPHY

The Division of Religion and Philosophy seeks (1) To aid the student in his interpretation of life, (2) To acquaint him with the spiritual heritage of the race, (3) To deepen his appreciation of Christianity by leading him to see the Christian religion in the light of man's total religious experience and (4) to train young people who, after further study at a seminary or divinity school, will furnish leadership for the churches.

OUTLINE OF A STUDENT'S WORK FOR A MAJOR

The student majoring in Religion and Philosophy must meet all the requirements for the Bachelor of Arts degree. (See page 28).

With the major emphasis on Biblical Studies

Required: 24 semester hours composed of the following courses: Religion 101, 103, 104, 301 or 302, 303, 307, 308 or 309, and Philosophy 331.

Elective: 6 semester hours chosen from any courses in the Division.

Financial Information

William Carey College seeks to adjust her total program to the life and needs of her particular community. Since it is recognized that Mississippi is largely rural and agricultural, expenses are trimmed to the absolute minimum consistent with quality academic work. Every fee charged covers a desirable service or necessity for highest well-being of school and students.

The Schedule of Expenses

I. For Day Students:

Student Government fee	$ 20.00
Matriculation	30.00
Tuition	120.00
	$170.00

II. For Dormitory Students:

Typing (per semester)	5.00
Office Machines	5.00
Graduation fee	10.00

Note: Literary tuition for students not taking full work,
Per semester hour ..... $ 5.00

General Financial Regulations

An application fee of $10.00 is charged each applicant at the time of making application. It is required to reserve a room in the case of dormitory students; or in the case of local stu-

dents, a place on the student roster. It is refundable only in the event notice of withdrawal is sent to the Registrar of the college not later than August 15 preceding the date of opening. Students are given credit for the $10.00 on the session's expenses and it is not, thereby, an additional charge.

Terms of Payment

One-half of total expenses are payable upon matriculation, the remaining half payable at the beginning of the second semester.

Sons and daughters of active ministers of the gospel are charged only $60.00 for literary tuition during the regular session.

All checks should be made payable to William Carey College.

Payments must be made promptly on the due date, as stated, without further notice.

All correspondence relating to financial matters should be directed to the Business Manager of the college.

No student will be permitted to take his mid-year or final examinations until all expenses for that semester have been satisfactorily arranged.

No student will be granted a transcript of record or diploma or honorable dismissal until his account is settled.

Since William Carey College charges students the lowest amount possible consistent with services rendered and quality of program offered, no reduction or rebate of fees or residence charges can be made. No refund on either tuition or fees can be made on account of withdrawal after ten days from the beginning of either semester, except in case where illness makes withdrawal necessary and when advised by the college physician. In such case, the proportionate part of charges will be refunded. Should a student be asked to withdraw, a proportionate part of all fees will be refunded. No deduction is made for temporary absences.

Bookstore and Supplies

The college maintains a bookstore, through which books, stationery, ink, and other supplies are furnished. Students should come with money for these items since in no case can they be charged.

Scholarships and Opportunities for Self-Help

The college is able to offer a number of scholarships to students of high scholastic rating. Individuals and religious groups from time to time make grants for scholarship purposes, and friends of the college interested in Religious Education underwrite a few scholarships for special types of students.

The "S. E. Lawrence Scholarship Fund," an annual grant, is given by Mr. S. E. Lawrence of Marion County. The scholarships are granted to mission volunteer students from Marion County. If none offers from Marion County, the college has the option of placing the scholarships on students of like promise and need from other localities.

The "Fannie Bell Allman" scholarship, which has the value of $100, is given to a voice major in need of financial assistance to complete college work. This scholarship is a memorial set up by the Allman family in memory of their deceased sister who was a voice major, graduating from William Carey College in the class of 1927.

The R. B. Thomas Scholarship Endowment of $10,000 has been set up by Mr. and Mrs. R. B. Thomas of Wiggins, Mississippi, to assist students who are training for full-time religious work, or other students of outstanding quality who might be selected by the committee in charge of appropriations of scholarship endowment.

Temple Baptist Church Scholarship, a $50.00 Missionary Training Scholarship, is offered by the Temple Baptist Church, Hattiesburg, for a mission volunteer.

Mr. and Mrs. R. M. Ross Scholarship. Mr. and Mrs. R. M. Ross give annually one scholarship in the amount of $250.00 as a memorial to Mrs. Lena Sanders, the mother of Mrs. Ross. This scholarship is limited to a student of Attala County, the home county of Mrs. Sanders.

Anyone desiring to apply for any one of the scholarships above should write directly to the president of the college for instructions.

The college offers a limited number of work assistance opportunities to such as find it necessary to earn a part of their college expenses. Student help serves the dining hall tables or acts as library assistants, office assistants, etc.

Those needing such help should apply directly to the president of the college. Help cannot be given to all, but as far as the college has such opportunities these positions may be applied for.

Veteran's Administration

William Carey College is approved by the Veteran's Administration for veterans under Public Law 346, 550 and 16.

Students coming under the G. I. "Bill of Rights" and entitled to benefits thereof come under the administrative office of the school. Here arrangements will be made for the course of study which a student wishes to pursue and for all related matters.
